

Code: CT-DS18B20/5M

TEMPERATURE SENSOR **CT-DS18B20/5M** 5 m

The CT-DS18B20/5M temperature sensor is designed to work with any systems equipped with the 1-wire communication bus.

Support:	Control panel 1-wire
Detection:	Temperature measurement
Alarm signaling:	—
Tamper contact:	—
Measuring accuracy:	$\pm 0.5\text{ }^{\circ}\text{C}$ @ $-10\text{ }^{\circ}\text{C}$... $85\text{ }^{\circ}\text{C}$, $\pm 1\text{ }^{\circ}\text{C}$ @ $-30\text{ }^{\circ}\text{C}$... $100\text{ }^{\circ}\text{C}$, $\pm 2\text{ }^{\circ}\text{C}$ @ $-55\text{ }^{\circ}\text{C}$... $125\text{ }^{\circ}\text{C}$
Length of the cable:	5 m
Main features:	- Resolution : 9 bit / 12 bit - Can be powered directly from the data communication bus
Color:	Silver
Operation temp:	$-55\text{ }^{\circ}\text{C}$... $125\text{ }^{\circ}\text{C}$
Weight:	0.06 kg
Dimensions:	$\varnothing 6 \times 50\text{ mm}$ (detector)
Guarantee:	2 years
