

Code: EPRADO-R19-42U/600X1000

SERVER STANDING RACK CABINET **EPRADO-R19-42U/600X1000**

The server RACK cabinets have perforated front and rear doors to cool the devices mounted inside from external air conditioning units. The distances between pairs of rails (located on both sides of the cabinet) can be adjusted in increments of 1 cm, which simplifies installation of servers and similar devices. The cabinet has 4 lockable side walls.

The EPRADO-R19-42U/600X1000 cabinet is suitable for mounting all sorts of devices in standard 19" rack housings. Ideal solution for installing DVRs, power units, splitters, headends, network devices, etc. Inside the cabinet can be also place the devices that are not in standard RACK-19" housings, for example DVRs, multiswitches, RTV-SAT amplifiers, modulators. For this purpose the user should mount additional shelf/shelves available for RACK cabinet.

The RACK cabinet has many openings ensuring adequate air circulation. Additionally, it is possible to install fans to increase the ventilation.

Attention! The Rack cabinet is fully assembled and ready to use.

Internal width:	19 "
