WI-FI SMART PLUG **ATLO-S2IP6-TUYA** Wi-Fi, Tuya Smart

The ATLO-S2IP6-TUYA Wi-Fi Smart Plug allows to control the devices connected to it using the mobile application. For proper functioning of the device, it is necessary to connect it to the Wi-Fi network with Internet access.

The product is adapted to work outdoors.

Beyond direct control, the device has the ability to program the on and off schedule, and in "Away Mode" it can simulate the presence of household members by turning on and off connected devices at different times. Voice control allows you to control the device via voice commands from Amazon Alexa or the Google Assistant (Internet access required).

Tuya is an international home automation platform that connects thousands of products made by different manufacturers. The system can support all the most popular communication protocols such as Wi-Fi, Zigbee, Bluetooth. The platform also allows devices to be shared by more users.

Attention! Controlling the device and schedule settings is possible if the device has access to the Internet.
