

Code: MACHINE-CUP-GREASE/65

MACHINE CUP GREASE **MACHINE-CUP-GREASE/65** SQUEEZER 65 ml AG TERMOPASTY

The MACHINE-CUP-GREASE/65 machine grease is used to lubricate mechanical components (bearings, joints, guideways, etc.) operating under heavy loads. The product can work in a wide range of temperatures and has a high resistance to washing-out with cold water. Thanks to this, in addition to reducing friction between elements, it also protects them against corrosion.

Preparation sold in a practical, precise dispenser.

Package:	Squeezer 65 ml
Application:	Lubrication, Protection against moisture ingress
Main features:	The dispenser acting as a packaging allows for very precise application of the preparation
Weight:	0.08 kg
