

Code: GPS-BL012

GPS TRACKER **GPS-BL012** Blow

The GPS-BL012 GPS Tracker is a device allowing to track its position and inform about it via SMS, www.gps903.net portal, or a mobile application for devices with Android, iOS systems. The device allows you to track the route and the speed with high accuracy. After switching the device from positioning mode to listening mode, you can call the number of the installed SIM card and listen to the surroundings.

Convenient operation by means of SMS codes allows you to remotely manage the device regardless of its location.

Attention! To work, the device requires an activated SIM card with the possibility of data transfer via GPRS.
