

Code: AXON-ADSL

OVERVOLTAGE LIMITER **AXON-ADSL**

The AXON-ADSL device is designed to overvoltage protection of devices connected to ADSL telecommunication line. It is perfect protection of ADSL modems.

Nominal voltage (line-line):	120 V
Maximal voltage (line-line):	150 V
Protection level of surge suppressor:	≤ 600 V
Nominal discharge current (line-PG):	5 kA (8/20μs)
Maximal discharge current (line-PG):	10 kA (8/20μs)
Capacity:	< 10 pF
Sockets type:	RJ11 (6P4C)
Dimensions:	66 x 60 x 30 mm
Weight:	0.05 kg
Guarantee:	2 years
