

## DATA SHEET

## Code: DG-1-CO CARBON MONOXIDE (CO) DETECTOR **DG-1-CO** SATEL

The DG-1-CO microprocessor-based digital gas detectors are characterized by reliability and low current consumption. A digital temperature compensation feature allows to operate within a wide temperature range.

Gas concentration above the threshold level triggers visual and audible alarm signals. The detectors are intended to used as part of a security system. Device should be mounted at a height of about 1.5 m above the floor.
