DUAL TECHNOLOGY DETECTOR MICROWAVE + PIR **ISC-PPR1-WA16G** BOSCH

Digital dual technology detector equipped with PIR and microwave detection. When the PIR detector is activated, and the MW detection confirms the triggering of the PIR, then alarm signal will be sent to the alarm control panel.

The device is suitable for protection of rooms with sub-optimal environmental conditions - where drafts or intensive convection may occur, for example rooms with fireplaces or rooms with heating blast.
