

Code: AX-2560

VGA-VIDEO CONVERTER **AX-2560**

The AX-2560 converter allows to connect a VGA video signal (for example from computer) to the TV monitor using AV input (Composite Video signal) or S-Video input. Device is perfect for presentation purposes, slides shows, where computer image should be presented on bigger monitor or TV-set screen.

Attention! With the VGA through-connection, you may notice slight deterioration in picture quality.
