

Code: DEXTA-ECO

## DIRECTIONAL ANTENNA **DEXTA-ECO**

The antenna has been designed as powered from receiver, so that the amplifier consumes energy only when you are watching TV. In the case when the receiver has no option to power the amplifier, you can additionally power it by micro USB connector.

Receiving channels:	21 ... 69
Gain :	5 ... 22 dB
Polarization:	Horizontal
Impedance:	75 $\Omega$
Power voltage:	5 V
Current consumption:	65 mA
Main features:	<ul style="list-style-type: none"> <li>• Maximal level of amplifier input signal : 70 dB<math>\mu</math>V</li> <li>• Continuous gain adjustment</li> <li>• Environmental immunity</li> <li>• Small dimensions</li> </ul>
Weight:	0.205 kg
Dimensions:	730 x 325 x 70 mm
Guarantee:	2 years
