Safety measures:

Particular attention at designing was directed to quality standards of the device where ensuring safety of operation is the most important factor.

The device must be secured against contact with caustic, staining and viscous fluids.

The HY-SA300A-10T is a high quality device indicated for monitoring of visible smoke presence in accommodations and early detection of fire.

The smoke detector is designed for most buildings, however, is not suitable for the exterior of the building or very high premises because of the possibility of not taking the detection the existing risk of fire.

The built-in communication bus enables the connection of up to 16 HY-SA300A-10T detectors in different rooms. Thanks to this, the audible alarm is triggered in all connected detectors, while the light signaling is activated only in devices that have detected smoke. Such a solution significantly facilitates the location and identification of the source of smoke and taking appropriate actions.

Attention! The device is designed for autonomous operation, it does not have the ability to work with alarm systems.

Detection:	smoke
Alarm signaling:	<ul style="list-style-type: none"> • LED indicator • Acoustic (buzzer)
Smoke chamber dirt build-up indication:	✓
Battery power supply:	1 x Battery type CR123A 3 V (included)
Main features:	<ul style="list-style-type: none"> • Battery lifetime : 10 years • Sound signaling 85 dB / 3 m • Test button - with Mute function • Low battery level alarm • Possibility to connect up to 16 HY-SA300A-10T detectors using the communication bus
Operation temp:	0 °C ... 45 °C
Weight:	0.11 kg
Dimensions:	Ø 102 x 36 mm
Manufacturer / Brand:	DAHUA
Guarantee:	5 years
